### Ansul Formaldehyde Dust

#### For the Control of "Damping-Off"

Few growers realize that such diseases as "Damping-Off" and rots of seedlings are caused by living germs. Too frequently such troubles are attributed to poor seed, poisoned soil or the weather. An effective control is to use 1 1/2 oz. of Ansul Formaldehyde Dust per square foot of area of soil in beds, benches or flats 2 1/2 inches deep. Where soil is 3 to 4 inches deep use 2 to 3 oz. of dust. 1 lb., 75c; 5 lbs., \$2.00.
